Dear families

Welcome to this edition of our Newsletter.

On Wednesday a group of pupils took part in a Sportability event at Inspire and came back with stickers and medals - read all about this later on in the newsletter. Active Luton have also been in this week to work with our Sports Leaders which will help develop their leadership skills through sport.

Thank you for all your donations of cakes and biscuits for our bake sale for Children in Need. The children enjoyed the netball shooting during break times, organised by Mr Osborne and Mr Britten – thank you to the PE team. I am pleased to announce that we raised £1404.42 for this worthy cause. Thank you to Mr Bradbury and the JLT for organising the events.

Next week Y3 have a dinosaur workshop to look forward to as part of their Rocks and Soils science topic and some Y5/6 pupils will be taking part in a dance event at Luton Sixth Form.

Please make sure your child has their coat on as the weather is definitely turning colder now.

Have a good weekend.

Mrs Adams

Cool Website

Visit [Highlights for Kids](#): a website where you can play games, watch stories and try out fun science and art activities. There are quote and quizzes, opinion polls and recipes to try out. You are sure to find a fun activity to try.

Attendance

The class with the highest attendance is:

Goodall - 96.8%

Upcoming Events:

- 1st December -Year 3 Dinosaur Workshop
- 9th December RAF visit Goodall, Hawking, Curie
- 10th December—RAF visit Linnaeus, Jemison
- 10th December—Christmas Jumper Day

Author of the Month - David Walliams

- His books have now been translated into 40+ languages
- David Walliams is a comedian, writer and actor and is best known for being a star judge on Britain's Got Talent.
- David is also well known for his charitable work for Sports Relief, part of Comic Relief. He has subsequently completed long distance swims of the English Channel, the Strait of Gibraltar and the River Thames, raising millions of pounds for charity!

FAMILY CENTRE NEWS

Dear Families,

We hope you are all healthy and well during this cold time. With Covid cases increasing please continue to keep your families safe and follow all guidelines.

Breakfast club has places for new children. If you find yourself needing to get your child early to school due to an appointment then please give us a call either the day before or on the morning and we will be happy to support you, £3 per session.

Black PE Sweat shirts with the weather getting colder we have now got a stock of sweatshirts in school priced at £10.99 which can be brought from the School office.

We still have seats left for you to join us to watch Cinderella at Luton Library Theatre on Saturday 8th January 2021 £13 per ticket or Family Ticket £44 (1 adult 3 children or 2 adults 2 children). If you are interested please call us to book your place as numbers are limited.

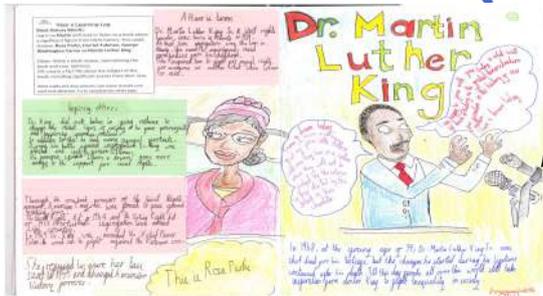

STAY SAFE, WASH HANDS and KEEP YOUR DISTANCE

Should you or your family need advice, guidance or support please pop in to see us, call 01582 509121 or email Familyworker@williamaustin.juniorluton.co.uk

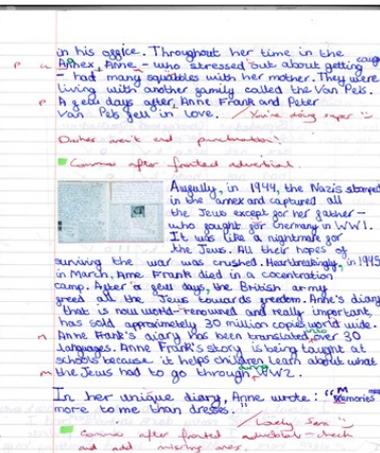

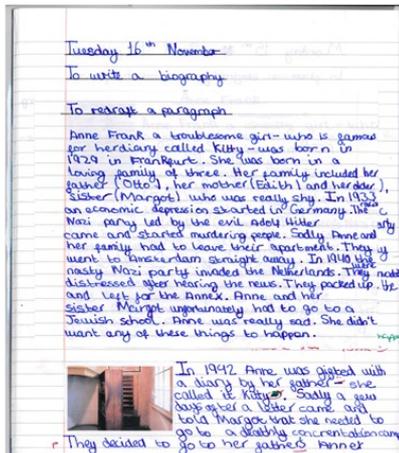

Take a look at this week's **Wow Work!**

Sporting Fixtures

On the 24th November we went to sportsability and did lots of different types of games, such as goalball, table cricket, curling and golf. We did lots of fun sport and because of our excellent work we all won gold medals. We had a lot of fun and came back in time for lunch. We had a very good experience. *Aisha—Hawking*

Today we had to represent WAJS by going to do multisports in a place called Inspire. We were so excited to go! We couldn't wait! When we got on the bus we started chatting about what we might do. When we came inside the hall it was MASSIVE!! It looked so exciting and it was encouraging us to participate. First, we played dodgeball and we hit 16 people altogether. Then we played hockey and we had to dribble around the cones and score. It was so exhausting but we got back to school safely. *Fajer—Hokusai*

I had a fantastic day at Inspire. We played many different games—curling, goalball, table cricket and golf. It was so much fun. I had the best day. *Aahil Baker*

On Wednesday 17th November we trained for our Sports Leader practice and learned that there are strategies and tactics for any game we play even if it is as simple as a race. Any game can be played for young children only if it is safe and appropriate for their age. We can show teamwork and know how to play seriously but also by having fun. We learned about:

Safety	Space	Not only can we use these skills in sports but we can use them in our life to be a future star.
Organisation	Tactics	
Co-operation	Equipment	
Control	People	
Enjoyment

Science - Mr Patel

We have had an exciting half term of science already. Year 3 have been learning all about fossils and dinosaurs: they have been investigating soils and how porous they are. They will also be taking part in a dinosaur workshop later on this term, featuring an animatronic dinosaur! Year 4 have been exploring sound and investigating how distance affects the loudness. Year 5 have been carefully analysing animals: they have been looking at life cycles of many types of animals and how they differ from each other. Year 6 have been exploring electricity and how the brightness of a bulb can be affected by changing different components of a circuit. There has been an exciting new STEM club for Year 5 and 6: children have enjoyed making vibrating bugs, balloon-powered cars and much more to come. Thank you. *Mr Patel*

Year 3

We have been very busy this week in year three! In our Geography lessons we have been researching about Antarctica. Hopefully your child can remember lots of interesting facts! In preparation for our dinosaur workshop on Wednesday we have been learning about fossils and the different types of fossils that can be found. The children are very much looking forward to this. *Mrs Slater and the Year 3 Team*

Year 4

The children in year 4 have been writing their own suspenseful opening. The teachers have been very impressed with their creativity. In Maths, Year 4 have started a new unit on multiplication and division and are enjoying making connections. We are encouraging all children in year 4 to learn their times tables as this is an excellent tool to help them learn their tables. Thank you for your continued support. *Mrs Chowdhury and the Year 4 Team*

Year 5

Year 5 have just started their new English unit - Adventure Stories and we're going into the magical world of Harry Potter! We've been sorted into our Hogwarts houses so be sure to ask your child which house they're in. In Maths, we will be moving onto area and perimeter; the children will need to draw upon their multiplication facts so do keep encouraging them to play TTRS. We're ending the week with an art afternoon ready for the festive time ahead. Thank you for your continued support. *Mrs Hussain and the Year 5 Team*

Year 6

As part of our about WWII learning, Year 6 have studied Anne Frank. They wrote biographies about her life after learning about her in our guided reading lessons. We are looking forward to our trip to RAF Hendon in a couple of weeks. Children have investigated resistance in science and drawn conclusions about why bulbs get dimmer when we add more to an electrical circuit. We have been learning about bread and in a few weeks' time, children will have the opportunity to make their own mini-loaves! Thank you for your continued support. *Mr Gilligan and the Year 6 Team*
